EDITORIAL.

We had hoped that the world would once more be at peace when the College Magazine made its appearance this year, but unfortunately it must again be a "War Edition." Owing to the conditions imposed by prolonged warfare, it has become necessary to slightly reduce the size of this year's Magazine, but every effort has been made to maintain the usual standard, and we trust that our readers will find this copy as interesting as former editions.

The world shortage of food has made Agriculture of vital importance, and the difficulties with which the agriculturist has to contend, continue to become more numerous. It is doubtful whether there is any other profession or trade which is at the mercy of so many "Controllers" and "Committees" as farming. Many modifications and much progress is being witnessed in the agricultural world, and we are hearing much of the proposed Agricultural Party in Parliament. Undoubtedly agriculture would benefit if it was more strongly represented by members who have an intimate knowledge of the subject. It is, however, often stated that the characteristics of a successful farmer are in exact opposition to those of a brilliant politician. For the proof of this, however, we must "wait and see."

The College has experienced another busy year. The number of female students attending the Winter Session compares favourably with former years, and the enthusiasm shown by those taking the "War-time" Course in Agriculture has been very gratifying.

We again publish the College Roll of Honour, showing a number of additions, and unfortunately the list of those gallant men who have laid down their lives has increased since last year. It will be learned with regret by our readers that a late member of the College Staff—Captain Murray—is included in the list.

This year we add Miss Blunt to our "portrait gallery," and we feel sure that a more welcome addition could not have been made. In the official capacity of Instructress in Dairying, Miss Blunt enjoys the confidence of the dairy world, and is deservedly popular amongst a wide circle of friends.

Changes in Staff have been few since our last issue. In October, 1917, Miss Howard, Instructress in Butter-making, resigned. She was succeeded by Miss F. Robinson. Miss F. M. Hextall resigned her post as Assistant in the Poultry Department, in December last, to take charge of the Poultry Station at Lleweni, under the University of Bangor. She was succeeded by Miss N. Scott. In January of this year Miss Ball was appointed Assistant Matron.

In conclusion we wish to draw our readers' attention to the "Notices," and would remind those who omitted to send their subscriptions for last year's copy of the M.A.D.C. Magazine, that it is not yet too late to do so.

NOTICES.

The Editor will be pleased to receive literary contributions to the next number of the M.A.D.C. Magazine. M.S.S. should be forwarded before December 31st, 1918.

Readers are again requested to notify the Editor of changes in address.

The Hon. Secretary will be glad to receive notice of additions to and alterations of, the Roll of Honour, so that it may be kept up to date.

The Fiction Library and the Piano Fund of the Students' Association are in need of help. The Hon. Secretary would be glad to receive contributions.

PLEASE DO NOT FORGET TO FORWARD YOUR SUBSCRIPTION FOR THIS MAGAZINE.

CAPTAIN ALEXANDER MURRAY, SCOTTISH HORSE.

Killed in action in France, August 14th, 1917.

Tducated at Aberdeen Grammar School and Glasgow University.
Graduated M.A. and B.Sc. at the latter University.

'ant Lecturer in Agriculture at the Midland Agricultural d Dairy College from October, 1912, to September, 1913, in he was appointed a County Agricultural Organiser for land under the Glasgow and West of Scotland Agricultural College.

CAPTAIN ALEXANDER MURRAY.

AN APPRECIATION BY ONE WHO KNEW HIM.

The news of Captain Alexander Murray's death on the field of battle came as a great shock to many of the College residents. To those of us who were contemporaries with Captain Murray it seemed hardly possible that he had been called upon to make the great sacrifice, and all that remained for us was a sweet memory.

For many years I have watched the stream of Students and Staff pass through the portals of our College, and, although it is often considered invidious to single out individuals, yet I must say with all sincerity that no man or woman attracted to his side greater or more sincere friendship at Kingston College than Alexander Murray. How well I remember his free and rugged Celtic nature, and how it was combined with the generous and homely spirit of the Northern Briton.

The drums of war in 1914 called not in vain to that spirit, and in the first ranks of volunteers was found our colleague and friend. From a trooper in the Scottish Horse he rapidly rose to the rank of a commissioner officer. I remember when I last saw him—at the R.A.S.E. Show in 1915, at Nottingham—how disappointed he was because his country had not, up to that time, seen fit to send him to the firing line. We can, all of us, realise how anxious he must have been, and how his eager patriotic spirit thirsted for the opportunity of taking an active part in the defence of our Empire.

Murray lived and died a gentleman, a friend, a noble-hearson of Britain; our Army, our Country, aye, and the worpower for the loss of one such as him.

Requiescat a laboribus suis.

RIFLE CLUB.

This season the mainstay of the Rifle Club has been the lady members, all of whom quickly became familiar with the use of the rifle. The male students, strange to say, were not nearly so enthusiastic as in former years. All Medals and Certificates were won by ladies.

Grow Bigger Crops

As by making Great Britain A Self-supporting Nation,

British Farmers are Extinguishing GERMANY'S LAST HOPE,

(Viz.: Starvation through ruthless submarine warfare.)

SOW FOR THE BIGGEST CROPS

Gartons New and Breeds of Agricultural Seeds.

The Heaviest Cropping in Cultivation.
The Most Profitable in Cultivation.

The use of these during the past 30 years has, we claim, helped considerably to increase the yields of the Grain, Clover, and Root Crops of Great Britain and her Colonies.
